textile production is an economic necessity that has confronted all societies in the past while most textiles were manufactured at a household level valued textiles were traded over long distances and these trade networks were influenced by raw material

supply labour skills costs as well as by regional traditions this was true in the mediterranean regions and making textiles in pre roman and roman times explores the abundant archaeological and written evidence to understand the typological and geographical diversity of textile commodities beginning in the iron age the volume examines the foundations of the textile trade in italy and the emergence of specialist textile production in austria the impact of new roman markets on regional traditions and the role that gender played in the production of textiles trade networks from far beyond the frontiers of the empire are traced whilst the role of specialized merchants dealing in particular types of garment and the influence of roman collegia on how textiles were produced and distributed are explored of these collegia that of the fullers appears to have been particularly influential at a local level and how cloth was cleaned and treated is examined in detail using archaeological evidence from pompeii and provincial contexts to understand the processes behind this area of the textile trade

the two volumes of the archaeology of medieval europe will together comprise the first complete account of medieval archaeology across europe archaeologists from academic institutions in fifteen countries are collaborating to produce these two books of sixteen thematic chapters each in addition every chapter will feature a number of box texts by specialist contributors highlighting sites or themes of particular importance the books will be comprehensively illustrated throughout in both colour and b w including line drawings and specially commissioned maps this ground breaking set which is divided chronologically into two vol 1 extending from the eighth to twelfth centuries ad and vol 2 from the twelfth to sixteenth centuries to appear 2008 will enable readers to track the development of different cultures and of regional characteristics throughout the full extent of medieval catholic europe in addition to revealing shared contexts and technological developments the complete work will also provide the opportunity for demonstrating the differences that were inevitably present across the continent from iceland to italy and from portugal to finland and to study why such differences existed

crafting communities explores the interface between craft communication networks and urbanization in viking age northern europe viking period towns were the hubs of cross cultural communication of their age and innovations in specialized crafts provide archaeologists with some of the best evidence for studying this communication the integrated results presented in these papers have been made possible through the sustained collaboration of a group of experts with complementary insights into individual crafts results emerge from recent scholarly advances in the study of artifacts and production first the application of new analytical techniques in artifact studies e g metallographic isotopic and biomolecular techniques and second the shifted in

interpretative focus of medieval artifact studies from a concern with object function to considerations of processes of production and of the social agency of technology furthermore the introduction of social network theory and actor network theory has redirected attention toward the process of communication and highlighted the significance of material culture in the learning and transmission of cultural knowledge including technology the volume brings together leading uk and scandinavian archaeological specialists to explore crafted products and workshop assemblages from these towns in order to clarify how such long range communication worked in pre modern northern europe contributors assess the implications for our understanding of early towns and the long term societal change catalysed by them including the initial steps towards commercial economies results are analyzed in relation to social network theory social and economic history and models of communication setting an agenda for further research crafting communities provides a landmark statement on our knowledge of viking age craft and communication

this book is firstly an enormous catalogue of all textile finds from prehistoric roman and medieval contexts in great britain ireland the netherlands germany poland and scandinavia this data is used to show that the first steps towards organized textile production in northern europe were taken more than 2 500 years ago and that the industry that was to centre itself around the english channel and north sea coastal areas played an important part in the rise of the carolingian empire and anglo saxon england
